

4Life Transfer Factor[®] énummi[™]

BODY SOFTENING LOTION WITH 4LIFE TRANSFER FACTOR E-XF

Nutrition for your skin

You exercise to get your heart pumping. You eat plenty of fiber to keep your digestive system moving. What are you doing to keep your skin glowing?

Healthy, beautiful skin takes the same care and nourishment you give the rest of your body. The skin is the body's largest organ and a critical component of the immune system. It helps ward off disease by protecting us from bacteria and viruses in the environment, and helps regulate body temperature. Taking care of your skin, is an important part of looking and feeling great!

4Life Transfer Factor énummi effectively supports the barrier of defense provided by your skin, and delivers essential moisture to support healthy tone and texture of skin. The light refreshing scent of Thai lemongrass is added to this skin-enriching formula that blends herbs, protective antioxidants, and immune-boosting 4Life Transfer Factor E-XF to nourish skin and maintain its natural resiliency. énummi is a formula that's free of potentially harmful preservatives and additives. Use 4Life Transfer Factor énummi every day to look and feel healthy all over.

Key Points

- **4Life Transfer Factor E-XF:** One of the strongest forces in nature transfer factors have taken their place in the forefront of nutritional science. Transfer factors are tiny molecules that transfer immunity information from one entity to another, such as between a mother and her breastfeeding infant.

énummi includes 4Life Transfer Factor E-XF to give your skin an effective immune boost from egg yolk and colostrum sourced transfer factors. Because your immune system functions at the cellular level in skin, Transfer Factor E-XF topically supports healthy immune system function and skin health.

- **White Tea:** Rare white tea is made from buds and young leaves that are simply dried and not as processed as green or black teas, so more of its antioxidant properties are preserved. In fact, some research suggests that the benefits of white tea may be as much as three times more powerful than green tea. Along with additional antioxidant vitamins, white tea offers protective benefits that help fight naturally-occurring free radicals in the body, which cause damage to the skin. It supports healthy cellular function, and promotes the skin's natural renewal process for skin health and appearance.
- **Moringa:** Providing a powerhouse of nutritional value, Moringa has become a favorite in holistic personal care products. The Moringa plant has a complex range of naturally occurring vitamins, minerals, amino acids (including all of the essentials), and other important phytonutrients. The rich nutrients found in the Moringa plant send it to the top of the list for being among the best nutritional sources on the planet.
- **Natural Moisturizers:** Infuse your skin with essential moisture and the soothing properties of Aloe Vera and Shea Butter. Two of nature's most remarkable moisturizing and cell-renewing ingredients complete this formula for softer healthier skin.

Did you know?

The skin protects, absorbs and eliminates. It provides a first-line of defense for the body and functions as the body's largest eliminative organ after the liver. When skin functions properly it provides daily protection from harsh environmental exposure and helps eliminate toxins from the body.

The skin often mirrors the health of the whole body. In addition to caring for your skin on the outside, good health through proper nutrition and supplementation will be reflected in the appearance of your skin.

Technical Points

- The two most abundant and safest sources of transfer factors come from cow colostrum and egg yolks. Transfer factor molecules can be shared safely and effectively. Whether they are transferred from cow to human or from chicken to human, transfer factors are not species specific.
- The extraction processes for transfer factors from colostrum and egg sources are protected by US patent 6,468,534, and 6,866,868.

DIRECTIONS: Smooth generously to your skin daily.

Ingredients

INGREDIENTS: Water, Aloe Vera Leaf Extract, Hybrid Safflower Seed Oil, Glycerin, Sunflower Oil, Glyceryl Stearate, Caprylic/Capric/Myristic/Stearic Triglyceride, Shea Butter Fruit, Sandalwood Extract, Amur Corktree Bark Extract, Barley Extract, Cetyl Alcohol, Stearic Acid, Moringa Pterygosperma, Sodium Stearoyl Lactylate, Phenoxyethanol, Caprylyl Glycol, Sorbic Acid, Transfer Factor E-XF[™] (a patented concentrate of transfer factors and other natural components from cow colostrum and egg yolk.), White Tea Leaf Extract, Retinyl Palmitate, Ascorbyl Palmitate, Tocopheryl Acetate, Phospholipids, Dimethicone, Carbomer, Disodium EDTA, Sodium PCA, Fragrance, Allantoin, PEG-100 Stearate, Cyclomethicone, Triethanolamine
